

FoamMaster

Complete, Compressed Air Foam Cleaning

FoamMaster power cleaning systems automatically dilute concentrated cleaning products with water, and use compressed air to generate a thick, rich, clinging foam.

There's no more effective and efficient method than foam cleaning. Foam cleaning allows the cleaning solution to remain in contact with the soil load for an extended time period. It also allows you to clean hard-to-reach areas not always accessible by standard cleaning methods. The deployment of high pressure helps prevent damage to walls and equipment.

Hydro Systems offers multiple unique systems for foam cleaning. All can be used with limited water flow and compressed air pressure of 40 psi (3 bar or 3 kg).

Hydro also offers many ancillary products that can further enhance the performance of your FoamMaster. We can configure the perfect cleaning system for your most demanding applications.

FoamMaster power cleaning systems can be customized to meet your company's specific business strategies.

Ask your Hydro representative how the FoamMaster can work for you.

Model 899

Model 865

Different Models

Model 897, 898 and 899

- Chemical-contact components are made of chemical-resistant materials, allowing use with acids and aggressive cleaners
- Air and water flow can be controlled to deliver the foam thickness you need
- Built-in check valve prevents compressed air from forcing its way into the water line, allowing you to increase air flow for improved cleaning
- Rinse feature allows you to rinse the area after cleaning, without an additional hose
- Comes complete with 25 ft. (8 m.) heavy-duty discharge hose and brass foam/rinse nozzle with on/off valve

Model 865

- Provides excellent foam quality at an economical price
- Separate hose required for rinsing process
- Includes PVC discharge hose and handle

Model Selection Criteria

Model #	Description	Output (GPM)	Approximate Dilution Range	
			Max	Min
897	Single Product	1.2	240:1	5:1
898	Single Product	2.4	500:1	10:1
899	Dual Product	1.2	240:1	5:1
865	Drum Mounted, Single Product	3.5	128:1	5:1

Options & Accessories

Model #	Description
10090910	Molded bung adapter kit available with longer 2" NPT threads for drums with deeper recess
