

# LAUNDRY SOLUTIONS: ON-PREMISE, COMMERCIAL & INDUSTRIAL

## AURORA MULTI MACHINE

Aurora Multi-Machine expands the technological advancements and superior design of the Aurora Laundry system, making it capable of operating up to 5 laundry machines, saving on valuable space, installation time, and cost. Setting up and operating Aurora Multi-Machine is simple and straightforward. A single Aurora Laundry dispenser works in conjunction with the Multi-Machine module. Each washer has its own dedicated Aurora Connect (STU) and Pro Select (Formula Selector). Only one Pro Access controller is required to operate the Multi-Machine system. Programming, formula creation, and data collection can be done through the Pro Access or using the dedicated smart device app, DEMA Connect.

### Features & Benefits

- Splash proof durable ABS enclosure contains all components, electronics, power supply, and distribution manifold for simple plug & play installation
- The Aurora Multi-Machine module can be added to any new or existing Aurora dispenser
- Multi-Machine module can be mounted near the laundry machines and away from the pump stand and chemicals, simplifying set-up, reducing components and chemical delivery time plus creates a cleaner, more convenient installation
- Simplify installation and reduce cost using a single flush manifold and optional Chemical Measurement System
- Save up to 40% when compared to installing individual dispensers to each washing machine
- DEMA Connect App works with iOS and Android devices, and Windows 10 PCs
